

Coffee Table Configuration (as shown):
36"x36"x16"

The Progressive: a classic, revisited

With sleek angles and unique leg alignment, **The Progressive** is current, fresh and classic at the same time. And, it has pedigree: it's been in the Brunswick line for 20 years. The table comes standard with an inset glass top in a steel barstock frame. The Progressive comes in three configurations: coffee table, end table and console (*see back for sizes*).

The barstock frame is available in satin or polished chrome, or in a wide range of powder coat finishes. The clear glass tops can be etched and sealed and can have bevelled edges (all available on request).

In some cases you may want to substitute glass with granite, marble or wood. Wood and stone tops are cut with a chamfered edge and are raised above the table frame.
