First Impressions Matter

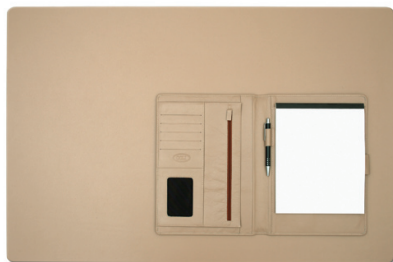

Desk + Boardroom Mats

Leather mats provide an elegant method of protecting expensive hardwood desks and boardroom tables. Mats are hand-crafted using a steel core that is wrapped in top quality Italian leather with a felt underlay. These mats lie flat and are extremely durable.

Mats are stocked in several colors of leather but may be custom covered in any leather to match seating. Mats may be embossed with corporate logos or tooled with a border in gold, silver, blind or custom colors. A full range of coordinated leather accessories are available.
